Hiring Team
Sarvam AI

Subject: Application for Internship Opportunity at Sarvam AI

Dear Hiring Team,

I am excited to apply for an internship at **Sarvam AI**. I am currently pursuing a **B.E. in Computer Science and Engineering** at **Nehru Institute of Engineering and Technology (Anna University)**, graduating in 2026. Though I am a fresher, I am eager to learn, grow, and contribute meaningfully to the AI domain.

My academic journey and self-driven projects have given me a foundation in **Python, machine learning, and deep learning frameworks**. I have also explored building **RAG-based AI assistants** and working with **LLMs** to solve real-world problems. These projects reflect my strong interest in **generative AI** and my commitment to continuously improving my skills.

I am particularly inspired by Sarvam AI's vision of building impactful AI solutions, especially for Indian languages and contexts. I am eager to contribute as much as I can, while learning from your team and applying my skills to challenging and meaningful projects.

Thank you for considering my application. I look forward to the possibility of contributing to Sarvam AI and growing within the AI domain.

Sincerely,
Anandhu P
